

Waxing & Tinting

eyebrow and lash services

Eyebrow Microblading

Microblading is a semi-permanent makeup treatment that places special pigments under the top layer of the skin, The result is tiny hair-like strokes that create natural and fuller-looking eyebrows to achieve more sculpted, symmetrical eyebrows that do not need any upkeep in the morning. In a detailed, no-charge consultation, a therapist will map out the optimal shape of the eyebrows, see where they require more definition and filling in prior to booking any treatment.

<i>Microblading Service</i>	<i>\$400</i>
